WELCOME TO AVALON PARK

Avalon Park is a purpose-built care home in Oldham, offering high-quality residential and residential dementia care. With 58 comfortable bedrooms and mindfully designed communal spaces, we provide a supportive and peaceful space where residents feel secure, valued, and at home.

Our selection of sitting rooms, dining areas, and quiet areas offer places for residents to relax, explore hobbies and interests, and share meals together. The memory room is also a valued place for quiet reflection and reminiscing. Many enjoy taking in the fresh air in our landscaped garden with patio and summer house.

LIFE AT AVALON PARK

Our highly trained team specialise in dementia care, and so you can be assured that our residents receive compassionate, person-centred support adapted to each individual. Each resident has a full care plan tailored to their health, personal and care needs.

Through meaningful daily activities, a focus on familiar routine, and consistent reassurance, our team promote wellbeing and independence wherever possible. With three nutritious meals a day in addition to a selection of snacks and beverages throughout the day, we make mealtimes happy and social occasions every day, in addition to celebrating special occasions from residents' birthdays to world festivals and even Elvis' birthday!

We look forward to welcoming you to Avalon Park.
